

CHARITABLE RECYCLING
PROGRAM

AUTOMATION
ALLEY™

The Charitable Recycling Program is a simple and efficient way of raising funds for your charity of choice. Recycling used cell phones have many benefits. Your charity of choice will receive a donation for each cell phone in working order that they collect. Charities depend upon fundraising dollars to carry out their mission statements and continue their good works.

The Charitable Recycling Program is a partnership with **REAP2**, an environmental recycling initiative by Automation Alley. Recycling cell phones will help to preserve our environment. Cell phones should not be disposed of in landfills since they contain many toxic materials that are harmful to our environment. Your donated cell phone will be refurbished and put to further use. Refurbished cell phones are typically sent to emerging markets and developing countries for reuse where a cell phone can be a lifesaver. Your donated phone may bring phone communication to a village for the very first time. Additional information can be found at www.charitablerecycling.com

Donors will be eligible for a tax-deduction for their in-kind donation. A tax receipt can be generated at www.charitablerecycling.com

The Charitable Recycling Program accepts all cell phones in working condition. Also include the phone's battery and charger if available. Please place or attach these components together with the phone before dropping it in the collection bin.

** Non-working phones will be recycled but no donation will be made. If your donated phone cannot be reused, it will be recycled in accordance with federal and local environmental standards for its metal and plastic components.

Before accepting a donation of 500 or more phones, please fill out the appropriate form at www.charitablerecycling.com and send it to us. The program coordinator will provide you with an approval number if the phones are acceptable.

How It Works

- Collect used cell phones in working order. Attach the battery & charger to the phone if available. A monetary donation will be given to the organization/charity for each phone in working order.
- **Please make certain that you cell phone has been deactivated before donating it. When the phones are refurbished, they are completely cleared and reprogrammed so there is no need to be worried about being charged for airtime**
- Ask your friends, family, employers and businesses in your area if they have any used cell phones to donate. Remind them of the benefits of the Charitable Recycling Program. Ask local businesses if you can place a collection bin in their office or store.
- Place the used cell phones in the designated collection bins. Donation receipts can be generated at www.charitablerecycling.com
